

# Hydrogen Oxygen Separation With Zero Ozone A true Hydrogen Rich Water Cup

✔ Absorbing hydrogen and drinking water

✔ Visual Status Display

✔ Long battery life

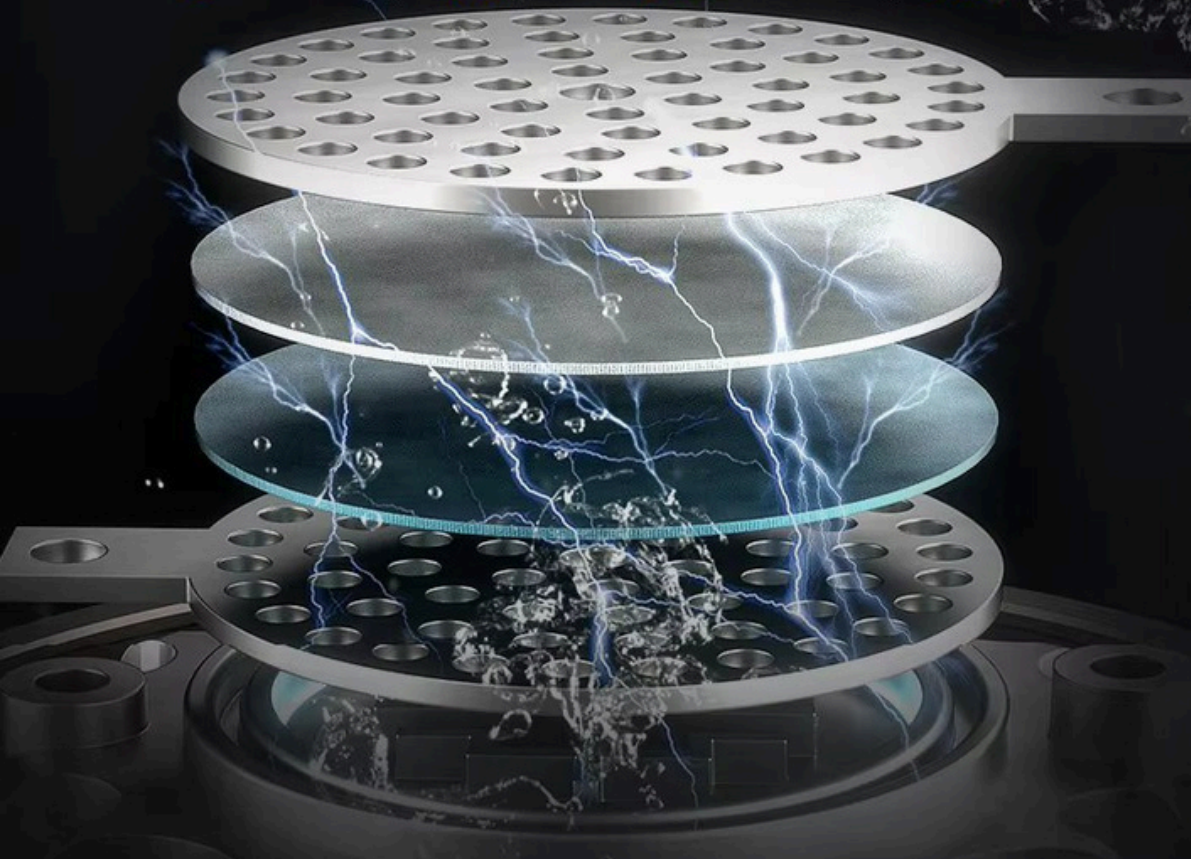

Cup body material : American Eastman tritan material	Material of cup lid: Aluminum alloy
Maximum power: $\leq 5W$	Base electrode: Platinum Titanium
Potential range: $-650 \sim 0mv$	Whole cup size: 220mm
Hydrogen concentration: 2000-9000PPb	Cup diameter: 65mm
Charge Port: Type-C	Cup capacity: 400 ml

New generation hydrogen production technology  
**Hydrogen production by dual-mode cavity**

**3** min Hydrogen molecular content up to **2000** PPb

**18** min Hydrogen molecular content up to **6000** PPb

**18 MIN GENERATION**

**DIVERSE**

**Multiple functions of one machine**

- ◆ Direct drink
- ◆ transfer mineral water
- ◆ hydrogen absorption machine

# ANTI-OXIDATION

Does not affect beneficial free radicals.

Neutralizes toxic free radicals.

Protects cells from damage.

soaked in normal water

soaked in hydrogen-rich water

Relieves inflammation.

Helps the body eliminate toxins.

placed in air

**Apple antioxidant test experiment**

The diagram illustrates an experiment comparing the oxidation of an apple slice in three different conditions. On the left, an apple slice soaked in normal water shows significant browning. In the center, an apple slice soaked in hydrogen-rich water remains bright red. On the right, an apple slice placed in air also shows browning. The background features a dark, textured surface with various microscopic particles and cells, suggesting a cellular or molecular level of interaction.

# BETTER ENDURANCE

**1850** mAh  
Large capacity lithium battery

**32** <sup>[2]</sup> 次  
Use in 3min mode

Charge for 2 hours use for 100 minutes

**EFFICIENT ENDURANCE**

The diagram shows a cross-section of a battery with a glowing green cylindrical component in the center. This component has a lightning bolt icon and the text 'EFFICIENT ENDURANCE'. The battery is shown in a transparent casing, revealing internal components like the cathode, anode, and electrolyte. The background is dark with some light effects, emphasizing the battery's power and efficiency.

# Fully sealed waterproof body

Drink water without fear of wind and rain

Long press the switch for 3 seconds to activate

**3MIN**

Water-soluble hydrogen-rich content  
**2000PPB+**

Double-click switch 2 times to activate

**18MIN**

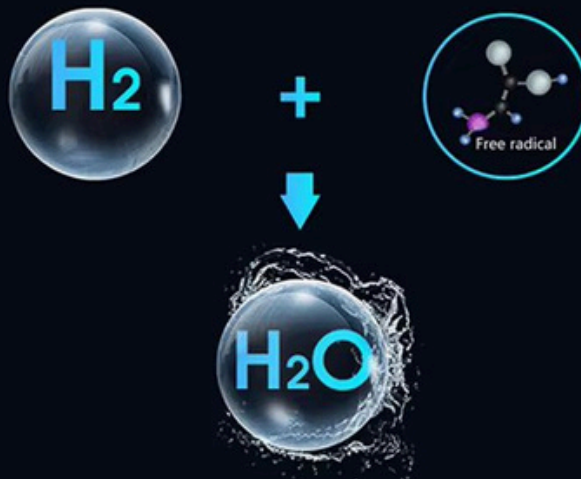

Water-soluble hydrogen-rich content  
**9000PPB+**

**WATER PROOF**

## FREE RADICAL CLEANING START TRANSFORMING NOW

**FREE RADICAL**

Medical research has found that hydrogen can selectively neutralize toxic free radicals in the body and generate non-toxic, harmless water, thus protecting body cells from toxic free radical damage.

Hydrogen enters the cell, synthesizes water from free radicals, and excretes it from the body.

Double Membrane  
Cavity

Tritan material does not  
contain bisphenol A

18-minute hydrogen  
absorption mode

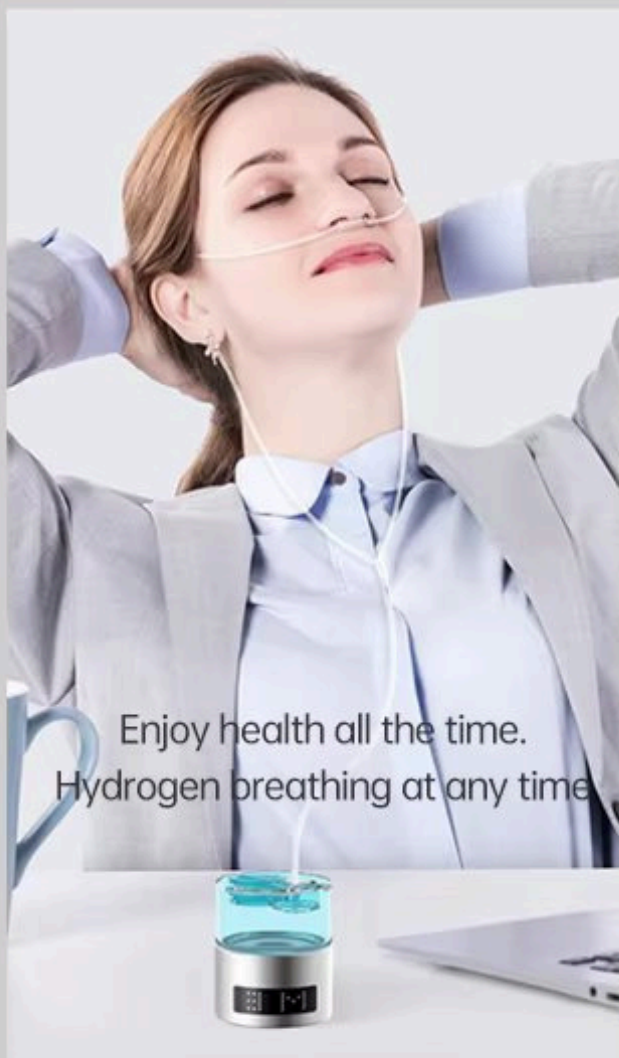

Hot and cold  
water universal

Efficient Endurance

1 Machine  
for 3 Purpose

Enjoy health all the time.  
Hydrogen breathing at any time

Small size

It is convenient to take anywhere you want.
