

PRODUCT SPECIFICATION

ITEM CODE: Polyphosphate
DESCRIPTION: Polyphosphate Cartridge Filter
BRAND: AQUAPRO

PRODUCT SPECIFICATION:

	DESCRIPTION:
Scale Prevention	Reduces Limescale Build-Up
Improved Efficiency	Energy Savings: By keeping heating elements clear of deposits
Easy Maintenance	Simple Cartridge Replacement: Just replace the cartridge when the media is depleted
Food-Grade & Safe	Non-Toxic Treatment: Uses food-grade polyphosphate media
Versatile Use	Multiple Applications: Suitable for water heaters, espresso machines, dishwashers, ice makers, and more.

PRODUCT SPECIFICATION

Flow Rate:

- Recommended Flow Rate: 0.5 – 2.0 GPM (1.9 – 7.6 LPM)
- Maximum Flow Rate: 3 GPM (11.3 LPM) – exceeding recommended flow may reduce contact time and treatment effectiveness

Operating Pressure

- Minimum: 20 psi (1.4 bar)
- Maximum: 100 psi (6.9 bar)

Operating Temperature

- Range: 4 – 38 °C (39 – 100 °F)
- Higher temperatures may affect cartridge life

Capacity/Lifespan

- Typically 6 – 12 months or 5,000 – 8,000 gallons (18,900 – 30,300 liters), depending on usage and water quality

Media Composition

- Food-grade polyphosphate crystals
