

PRODUCT SPECIFICATION

ITEM CODE: SS-HK2

DESCRIPTION: Water Softener Duplex System

BRAND: AQUAPRO

Product Specification:

Valve Type	Series softener valve
Regeneration Mode	Meter timer mix/ Timer
Resin Volume	32L
FRP Tank Size	0926+0628
Flow rate	$\leq 3\text{T/H}$
Working Pressure	0.1-0.4Mpa
Power supply	110V/220V, 50Hz

Inlet & Outlet size	3/4" / 1"
Drain size	OD=18mm
Salt Consumption	3.84KGS
Product size	270*575*820 mm

Advantages of our automatic home under sink cabinet water softener filter

- Fully automatic, microprocessor - controlled operation as opposed to tedious & time-consuming manual regeneration process
- Automatic regeneration on a preset time or Volume
- Self-operation without assistance of a technician
- LCD panel to easily set the regeneration time or volume as per your convenience
- High-capacity operation to facilitate regeneration number of times
- Space saving design - tank housing with brine tank
- Maintenance free long-life valve

New By-Pass Valve

LCD Display & TFT Display Available

Removable lid, more easier to add salt

Accessories
